Pre-Pre-Conference Practicum

Thursday, May 25, 12:00 - 6:00 pm \$100/\$130

Mark Jones ~ *Seeing through to Soul: The Natal Chart as a Window to Our True Potential*

This workshop will explore the birth-chart as symbol of our Soul's potential. Mark will teach the most direct way to understand/reach that potential by exploring the interaction of outer/transpersonal planets with inner/personal planets within the context of planetary and lunar nodes. The workshop will provide an opportunity to share in Mark's vision of a Soul-centered astrology wherein astrologer and client are allied in realizing that level of the client's being. To aid both astrologers and explorers in attendance, principles will be brought to life with multiple examples illustrating the way in which this approach has helped individuals transform and grow.

Pre-Conference Intensives

Friday, May 26 9:00 a.m. - Noon \$75/\$105

Steven Forrest ~ *The Transit of Neptune*

What do we do when everything falls apart? First, look at your birth chart. Very likely, there is a current Neptunian signature. Second, look into your heart. What keeps you clinging to the collapsing structure? Genuine need, or just habit and fear? If you surrender to the process, what will fill the space you are opening up in your life? And right now, in this moment, what new vision is arising in you? How can you best welcome it?

Jason Holley ~ *Deep Mercury: Journeying Through the Crossroads*

Descents, retrievals, crossings, encounters – the mythology of Mercury is profoundly psychological. Yet astrology often forgets Mercury's depth. Ally of all healers, Mercury does what astrologers do: assists individuals at key thresholds, helps make sense of the will of the gods, and encourages creative play of one's role in the cosmic drama. When Mercury is around, stuck places unstick, silenced parts start speaking, lost items return. Mercury loosens us up, slips past defenses, opens roads to uncharted psychic territory. Through client and participant charts, we'll explore the surprisingly profound effects he subtly facilitates natively and through visitations by transit, progression, and synastry.

Joanne Wickenburg - *Transits for the Novice & Intermediate Astrologer*

You don't have to be an expert to interpret transits in a way that is in-depth and meaningful. What's going on in your life now, and how can you best take advantage of both the easy and the challenging energies surrounding you. Joanne will show you how to read transits, aspects, eclipses, retrogrades and more. Some basic astrology is required, but as long as you know how to put the transiting planets around your chart, or have a computer that does it for you, it's a go! Join Joanne as she takes you through the art of transit interpretation. This is sure to be both fun and enlightening.

Post-Conference Intensives

Monday, May 29, 10:00 a.m. - 4:00 p.m. \$100/\$130

Brian Clark ~ *Cycles of Life: Initiations through the Journey of Life*

Planetary cycles map our passages and patterns of life, highlighting critical phases and initiations in our life cycle. All planets have defined cycles and their cyclic returns symbolize homecoming, maturation and initiation. Throughout the seminar we will delve deeply into planetary cycles that mark out our life, considering stages and aspects of these cycles which demarcate the critical turning points of our lives. We will work with the planetary cycles three-dimensionally, looking backwards into our personal, familial and ancestral past, as well as forward into the possibilities of our future, participating with the life script inscribed in our horoscope.

Melanie Reinhart - *Chiron and the Healing Journey*

We focus on the life-process symbolized by the Minor Planet Chiron, with particular reference to its meaning by transit. A brief astronomical introduction and a discussion about the 'healing journey' will enable us to reflect on and 'feel into' Chiron in our own horoscope. Enquiring into the role played by our physical, emotional and mental afflictions on the path of awakening, we walk the narrow path between denial of our suffering, and identification with it. And the Centaur Chiron travels with us. Some healing practices which support this theme will be offered.

Patricia Walsh ~ *ReSOULution: Counseling and Healing Karmic Imprints*

The hardest patterns to change are those that are imprinted on a soul level (buried deep in the subconscious). Patricia will share and demonstrate simple, yet deep techniques, from her 15+ years as a Past Life Regression Therapist /Trainer and Evolutionary Astrologer. She will teach how, meeting the subconscious in its own terrain, is the way to re-soul-ution. Working with the natal karmic signatures in the chart, you will experience one of your own past lives and work in the Bardo (afterlife) to resolve the imprints. You will learn direct experiential techniques to heal Karmic Imprints for yourself and clients.
